

# Professional development in Advanced Leadership for Sustainability

Do you want to keep developing your own skill set as a sustainability leader while also upgrading your knowledge on cutting edge sustainability topics with a group of other alumni?

The advanced leadership for sustainability course is a course for MSLS alumni only, that will run online for one year from January 2021 to January 2022.

The course includes

- Reading circles on materials co-determined by staff and participants
- Learner-led sessions on relevant sustainability topics
- Guest lecturers co-determined by staff and participants
- Leadership skill development support and peer support circles
- Support from peers and staff on ongoing and future projects

The course awards 15 ECTS and requires about 10 hours of work per week, including webinars, peer circles, readings and project work. There will be three individual assignments and one small group project. Two of the individual assignments will be portfolios, the third one will be project-based. The group project will be the learner-led session.

We hope that much of the work is supportive and perhaps overlapping with your existing work commitments and that your employer might see this as a professional development opportunity.

To apply: <https://www.bth.se/eng/courses/M5837/20211/>

Cost: Free for EU/EAA Citizens, 25000 SEK for non-EU/EAA Citizens.

If the cost of the course is preventing you from participating, please get in touch with Merlina ([mis@bth.se](mailto:mis@bth.se)).

We look forward to seeing you in January!

The MSLS/TISU Team
